Ministry Classification

Name of Organization _____

In order to assist the giving public, ECFA classifies its members into activity categories. Use this sheet to classify the primary outreach activity of your ministry. Use separate copies of this sheet to note the ministry activity of subsidiary members. Note that parent and subsidiary classifications should not overlap. For example, a church that also operates a school should indicate the parent's classification as Church and the subsidiary's as Education – K through 12. **Please limit selection to a maximum of 10.**
